

"...we speak for air conditioning..."

AMCAtv Eye Safety

Principles of OHS surrounding eye safety in hazardous environments in the commercial air conditioning industry, and why the principles exist.

Presenter: **Martin Dennison**
AMCA-NSW

Format: DVD

Duration: 12 minutes

Who should watch? All staff who work onsite or in areas of risk to the eyes.
Ideal tool for Site Inductions and Toolbox Talks.

What will I learn? At the end of this DVD you will:

- Be reminded of general eye safety
- Comprehend the specific extent of eye injuries in the air conditioning industry
- Understand the complexity and fragility of the eye
- Be exposed to strategies undertaken by major organisations to avoid eye injuries
- Know the appropriate PPE (Protective Personal Equipment) required for differing jobs
- See examples of onsite eye injuries
- Discuss your company's readiness to avoid eye injuries
