

Understanding Project Estimating 1

A full day workshop introducing the fundamentals of Estimating, including terminology used and responsibilities of the estimating function. You will see how Estimating impacts other disciplines within the organisation and gain an appreciation of the importance of accuracy and function in a competitive industry.

This course has two stages. Completion of attending Stage 1 (this course) is a pre-requisite to attending Stage 2. Recognition of Prior Learning / Experience can qualify for exemption for Stage 1 by successfully undertaking an assessment onsite at AMCA.

Note: Participants must bring a **calculator** to this session.
