

Security of Payment Act – the Good, the Bad & the Ugly

Since its commencement, the Building and Construction Industry Security of Payment Act 1999 (NSW) Act [SOPA] has helped keep cash flowing in the construction industry and especially for sub contractors.

The time frames and procedures under the SOPA however are strict and unforgiving and can penalize the uninformed and ill-prepared.

The "Security of Payment – the Good, the Bad and the Ugly" is a practical and interactive workshop which covers what to do and what not to do under the SOPA to help sub-contractors improve their chances of the best possible outcome.
